TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

TROPICAL CYCLONE BULLETIN NR. 25

Tropical Depression ADA (NOKAEN)

Issued at 11:00 PM, 19 January 2026

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The surge of the Northeast Monsoon will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, northern and eastern mainland Cagayan, eastern Isabela, Ilocos Norte, Abra, Polillo Islands, Camarines Norte, Camarines Sur, and Catanduanes.
- **Tomorrow (20 January):** Batanes, Babuyan Islands, northern and eastern mainland Cagayan, eastern Isabela, Ilocos Norte, Ilocos Sur, Abra, Aurora, CALABARZON, Oriental Mindoro, Occidental Mindoro, Romblon, Marinduque, Bicol Region, Northern Samar, Samar, Eastern Samar, and Dinagat Islands.
- **Wednesday (21 January):** Ilocos Region, Abra, Apayao, Cagayan Valley, Aurora, Bulacan, Bataan, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Visayas, Caraga, Davao Region, Camiguin, Misamis Oriental, Lanao del Norte, Zamboanga Peninsula, Basilan, and Tawi-Tawi.

HAZARDS AFFECTING COASTAL WATERS

There is no Gale Warning hoisted at this time.

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 5.0 m:** The seaboard of Batanes.
- **Up to 3.5 m:** The seaboard of Babuyan Islands, mainland Cagayan, Isabela, Aurora, and Camarines Norte; the northern seaboard of Camarines Sur; the northern and eastern seaboard of Polillo Islands and Catanduanes.
- **Up to 3.0 m:** The seaboard of Ilocos Norte and Ilocos Sur.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The western seaboard of Pangasinan; the eastern seaboard of Albay, Sorsogon, Eastern Samar, Dinagat Islands, Siargao-Bucas Grande Islands, Surigao del Sur, and northern Davao Oriental; the northern and eastern seaboard of Northern Samar.
- **Up to 2.0 m:** The seaboard of Zambales; the remaining seaboard of Ilocos Region.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

ADA is forecast to move generally east northeastward before turning eastward to southeastward from tomorrow (20 January) until Wednesday (21 January). Continuous dry air entrainment from the northeast monsoon is expected to result in gradual weakening of ADA. It may be downgraded into a low pressure area by Wednesday, although earlier weakening remains possible.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
